(SBU) The N'Djamena country team has agreed that MISI would be beneficial to Chadian security services, primarily as a tool for internet literacy and to increase internet connectivity (currently extremely low in Chad government services.) We understand that 1206 funding will be used to help establish the MISI network, training modules and Program of Instruction for the Ministry of Defense, Army and the two PSI Battalion headquarters that control the maneuver units being developed by the JSOTF-TS. EUCOM will use FY 07 and FY 08 dedicated Title 22 funding to extend the MISI network and equipment to other security services (police, gendarmes, national security agency).
